

The Impressionists

The aim of the project is to increase pupils' interest regarding the impressionist movement.

The teacher outlines the impressionist movement, its representatives and their most famous paintings. Each of the pupils is supposed to choose one of the impressionist works and paint its reproduction. It would be best if the pupils chose paintings by various artists in order not to have reproductions only of Van Gogh's Sunflowers 😊.

The teacher scans the reproductions and adds the following information:

The name of the painting, artist, pupil's name, age, school and country. The reproductions must have a JPG file format and the maximum width is 1200 px. The works and their descriptions are to be sent till November 25, 2015 to haluzka@gmail.com

After finishing the project, all works will be published in a web gallery which link will be sent to each of the participants.(December 2015). Every school which participates in this project will receive a CD containing works of all other pupils.

As was stated at the beginning, the aim of the project is to raise pupils' awareness and interest concerning the impressionist movement. Therefore all works will be published and there will be no evaluation of "best works". Every school and pupil will receive a certificate of participation in this project.
