The screenshot shows the top of a mobile app interface. At the top, there is a green header with the 'envirate' logo on the left and the 'ENO Environment Online' logo on the right. Below the header, the page has a dark grey background. The title 'ENO TREE PLANTING' is centered in white. Below the title, there is a paragraph of text explaining that ENO uses the Envirate mobile app to register tree planting actions and saves information about sites, including tree amounts, species, and GPS locations. Another paragraph encourages users to sign up for an account and register their school, or join an existing school with a code. At the bottom, there are two buttons: a green button with white text that says 'REGISTER / JOIN SCHOOL' and a white button with a grey border and grey text that says 'SIGN UP'. Above the 'SIGN UP' button, there is a link that says 'Don't have an account yet?'.

ENO TREE PLANTING

ENO uses Envirate mobile app to register all tree planting actions. With ENO's dedicated tree planting module, we save information about our tree planting sites, including amount of trees, species and the exact site locations based on GPS data.

To start saving and viewing your tree plantings, sign up for an account and register your school. You can also just join an existing school using your unique school code!
