Netd@ys Europe

Netd@ys Europe 2003

Thank you for your recent application to participate as a "labelled" project in the European Commission's Netd@ys Europe 2003 initiative.

The Netd@ys Team is very pleased to be able to let you know that your application has been successful and that your project has been awarded a Netd@ys label, a copy of which is attached. The logo is a well known brand name and it can be used when promoting your project for this year, but it should not be used for any other purpose. When the logo is used, it would be helpful if you would indicate that Netd@ys is an initiative of the European Commission.

Your project will also be included on the Netd@ys 2003 website which received over 3m hits last year. This should increase the visibility of your project and help to promote it in educational, cultural and other organisations in Europe and beyond.

The Netd@ys Team would like to take this opportunity to thank you for taking an interest in Netd@ys and it is very pleased to be able to collaborate with you in the successful promotion of your project.

Please do not hesitate to contact the Netd@ys Team if you require any further information.

Best wishes.

The Netd@ys Team
